

## GAVE NO LUAU.

## Charles Dwight Makes a Statement Regarding Rumors.

MR. EDITOR: In your issue of today I noticed a statement purporting to have been made by Mr. George C. Beckley, wherein I was mentioned as having given a luau at Kaalawai on the 6th inst. I wish to state that the article in question is incorrect in so far as it relates to myself, and the publication of this communication by you in your next issue would clear my name from an odious imputation.

I was not present at any nor did I give a luau on the date mentioned, nor do I know that a luau was being given at Kaalawai on the 6th inst.; and furthermore I did not go near the place for two weeks previous to the outbreak, and therefore had no knowledge whatever of what happened at Kaalawai on that day. By giving publication to this contradiction you will greatly oblige,

CHARLES B. DWIGHT.  
Honolulu, January 18, 1895.

## AN ANNEXATION PETITION

## To Be Circulated Among the Natives by an Ex-Royalist.

The natives are gradually realizing that they have been used as cats paws long enough and from present indications it is only a matter of a short time when they will take the oath of fealty to the Republic.

A man, formerly a royalist, will start out on Monday among Hawaiians with an annexation petition. He is confident that he will obtain a large number of signatures without any trouble.

A prominent member of the National band stated last night that the band boys would take the oath of allegiance at an early date. They understand now, like many other Hawaiians, that the Republic is the only Government here. The boys have been out of work for two years. They would not take the oath in 1893 and were discharged.

## DINGLEY ON MCKINLEYISM.

## What the Maine Congressman Says of Republican Policy.

Congressman Dingley, of Maine, on being asked if the Republicans would re-enact "McKinleyism" when they come into full power, as they expect to two years hence, replied: "That depends upon what you mean by 'McKinleyism.' If you mean every rate and schedule of the tariff Act of 1890, then I reply 'no'; but if you mean the protective principle, the policy of imposing upon competing import duties equivalent at least to the difference of cost of production and distribution here and abroad, arising mainly from our higher wages, which is the underlying principle of the tariff of 1890, then I reply 'yes.' The principle of protection is permanent, and the Republican party stands by it. The rates required to carry that principle into effect change as industrial conditions change."—Washington Star.
